ABOUT US

WHY CHOOSE COAST TO COAST CARPORTS, INC.?

Between our quality products, fair prices, outstanding customer service, and passion for helping others, you won't find another steel building company that offers what we do. Coast To Coast is one of the largest manufacturers in the metal building industry. And it's because of our manufacturing facilities across the country, that we're able to deliver our products to our customers throughout most of the United States. While we offer one of the largest selections of steel buildings, you can also opt to design and customize one for yourself. And with such a wide variety of customization options, it's nearly impossible to not get the metal structure of your dreams.

OUR VISION

Our vision here at Coast To Coast Carports, Inc. is to continue providing our customers with high-quality steel structures and staying ahead of our competition with our honesty and integrity, while turning satisfied customer experiences into lasting relationships.

COMPANY VALUES

- Taking responsibility for all of our actions, decisions, policies, and products.
- Being committed to providing outstanding products and services.
- Giving back to our community by contributing time and effort.
- Taking chances to further help the company.
- Maintaining honesty and honor in all we do.
- Building long-lasting relationships with our employees, customers, and business partners.

*NOTE: Customer must provide lift on 13' or taller buildings.

- Prices may vary by area.
- Prices are subject to change without notice
- To create a building length greater than 51', two or more buildings may be attached for \$120.00 per attachment.

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.

NOTE: Site-Specific drawings required on 13' or taller at additional cost.

* Rent to Own Available Only In Participating States, and Participating Dealerships

CERTIFIED A-FRAME BARN 40 LBS PSF

RENT TO OWN
No Credit Check!

Fully Enclosed, Vertical sides & ends, windows, garage doors and walk-in door.

STANDARD FEATURES Rated for 40 PSF GSL

Certified A-Frame Barn features include the following: 14 gauge galvanized steel framing spaced at 4' on center or less and 29 gauge metal roofing. A Frame Barn package include leg bracing for additional strength and stability, as well as both front and back gable ends on the main section and and both lean-tos of the barn. The base leg heights are 12' & 8' tall. Coast to Coast Carports, Inc. is not responsible for stopping, or repairing leaks under base rails.

14' x 14'	\$2,495.00 (Requires lift)	

NOTE: Customer will need to add fees for drawings and freight on bigger buildings. Customer is also responsible for providing the proper lift (Reach Lift) to ensure a safe and efficient install.

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.
NOTE: Site-Specific drawings required on 13' or taller at additional cost.

42 FT - 60 FT WIDE A-FRAME VERTICAL ONLY

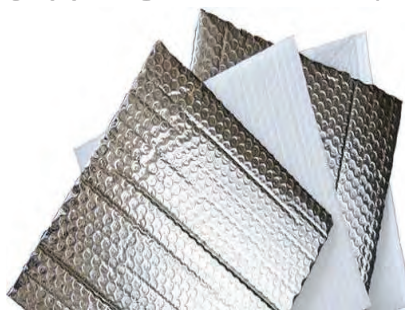

WE NOW OFFER INSULATION!!

THERMAL BARRIER

RADIANT BARRIER

VAPOR BARRIER

3 IN 1

THERMAL BARRIER:

* Inside layer made of heat-sealed insulating bubbles. Eliminates convection and conduction heat transfers (can represent 25% of all energy loss/gain in your building).

RADIANT BARRIER:

* The highly reflective surface of metalized foil (made of 99% pure aluminum) and white polyethylene eliminates radiant heat transfers (can represent 75% of all energy loss/gain in your building).

VAPOR BARRIER:

Combined product material acts as vapor barrier. Protects against condensation and mildew.

The highly reflective surface provides optimal thermal performance:

- * 97% radiant heat reflection
- * Acts as a vapor barrier
- * Maximize Thermal resistance (R value) without adding significant thickness to the insulation system.
- * Helps maintain temperature and humidity distribution of the structure at time of construction
- * Can be used on its own, or in conjunction with massinsulation.

Sources of Heat Loss in an Uninsulated Wall Cavity

In reality, a large portion of heat is gained/lost by radiant means. Radiant Insulation reflects heat that is trying to enter your cool living space back out so that it never gets to you. This provides for much cooler buildings in the summer. By the same means, if you use a reflective product facing into the building, you will reflect the heat you produce in the winter back into the building.

Reflective Insulation = Warmer Winters & Cooler Summers

Better Alternative

Reflective Insulation is a uniquely designed system made from layers of insulating air bubbles encased by a reflective surface. This unique combination delivers a high performance insulating product suitable for all construction and home renovation projects.

Summer

Reflects heat away from your living spaces, blocks significant heat gain in your house, and cuts air conditioning costs.

Winter

Reflects escaping heat back towards your living spaces, reducing heat loss, and lowering heat bills.

CERTIFIED GAMBREL STYLE BARNs 40 Lbs PSF

To price a Gambrel Style Barn, simply add the cost from the table below to the **All-Vertical Fully Enclosed** Building you are interested in.

	20' Long	25' Long	30' Long	35' Long	40' Long	45' Long	50' Long
12' to 20' WIDE	\$1,330.00	\$1,480.00	\$1,660.00	\$1,810.00	\$1,990.00	\$3,040.00	\$3,190.00
22' to 24' WIDE	\$3,210.00	\$3,390.00	\$3,540.00	\$3,690.00	\$3,870.00	\$4,020.00	\$4,200.00
26' to 30' WIDE	\$4,730.00 + DOUBLE LEG OPTION	\$5,120.00 + DOUBLE LEG OPTION	\$5,690.00 + DOUBLE LEG OPTION	\$6,110.00 + DOUBLE LEG OPTION	\$6,500.00 + DOUBLE LEG OPTION	\$6,920.00 + DOUBLE LEG OPTION	\$7,310.00 + DOUBLE LEG OPTION

Lift Required

NOTE: Site-Specific drawings required on 13' or taller at additional cost.

NOTE: Building must be vertical and fully enclosed in order to get Gambrel Style Barn. Customer is also responsible for providing the proper lift (Reach Lift) to ensure a safe and efficient install.

HOW TO PRICE INSULATION

1. ROOF

Add extra feet to width of roof

WIDTH	REGULAR	A-FRAME
12' - 22' Wide	2' Add On	2' Add On
24' Wide	2' 6" Add On	2' 6" Add On
26' Wide	2' Add On	3' Add On
30' Wide	2' Add On	3' Add On
32' Wide	3' Add On	3' Add On
34' - 60' Wide	3' Add On	3' Add On

EXAMPLE: A-FRAME 18' Wide X 25' Long X 7' Height

1. (Width) + (Extra Ft.) = (Answer)

2. (Answer) x (Length) = Square Footage

3. (Square Footage) x (\$2.00) = Cost

1. (18') + (2') = (20')

2. (20') x (25') = 500'

3. (500') x (\$2.00) = \$1,000.00

2. SIDES

1. (Length) x (Height) = Square Footage

2. (Square Footage) x (\$2.00) = Cost

3. (Cost) x (2) = Both Sides Cost

ONE SIDE COST

1. (25') x (7') = 175'

3. (175') x (\$2.00) = \$350.00

BOTH SIDES COST

\$350.00 x 2 = \$700.00

3. ENDS

1. (Leg Height) x (Width) = Square Footage

2. (Square Footage) x (\$2.00) = Cost

ONE END COST

1. (7') x (18') = 126'

3. (126') x (\$2.00) = \$252.00

BOTH ENDS COST

\$252.00 x 2 = \$504.00

TOTAL

\$1,000.00

\$700.00

\$504.00

\$2,204.00

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.

NOTE: Site-Specific drawings required on 13' or taller at additional cost.

*Rent to Own Available Only In Participating States, and Participating Dealerships

EXTRA OPTIONS & UPGRADES

J-Trim: J-trim is used as decorative trim underneath extra paneling on the sides of carports, around walk-in doors and windows.

Corner Trim: Is used as decoration on the corners of the buildings to provide a finished look.

Boxed Eave Trim: Is used as a finishing touch on boxed eave carport designs. The trim provides a boxy look on the sides of the carport.

L Trim: L-Trim is used as decoration on the ends of regular style carports to provide a finished look. L-trim is also used around the edges of garage doors and on portions of the Box-Eve model carports.

Hat Channels: Are installed on vertical buildings. They are used to secure panels to the roof, sides and ends of the building.

Ridge Cap: is used only on vertical buildings and is installed in the middle of the roof where the panels meet.

Gable Ends: A steel panel usually installed horizontally, with the same curve as the bow of the building. They can be installed on either end of the building, and extends from the top of the legs up to the top of the gable ends can also be installed vertically at an additional cost.

Corner Braces: Corner braces are U-shaped channels that are used to assist in reinforcing the structure of the building.

Rebar Anchors: Rebar is a common steel reinforcing bar. Our rebar anchors are made from this reinforcing bar, and they are approximately 3' long. They have a 5/8" nut welded onto one end. They are installed through a hole drilled into the base rail, and they secure the building in both ground and asphalt installations.

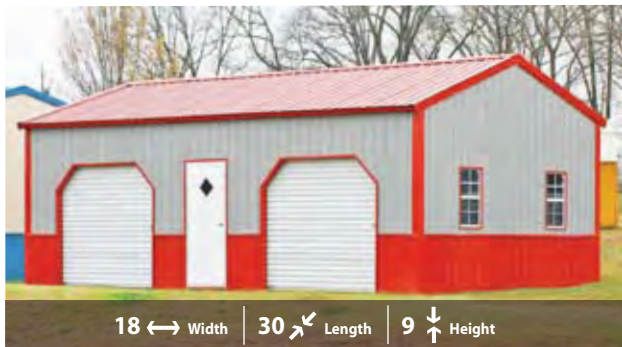

Mobile Home Anchors: Mobile home anchors are used to secure the building in a ground installation only, and are used primarily on certified buildings. They are helical in design. They can be installed as an option on all other buildings at an additional charge.

NOTE: If you are needing special drawings or wet stamped drawings for your building, there will be an additional charge.
NOTE: Site-Specific drawings required on 13' or taller at additional cost.

LEVELLED LAND AWARENESS

Coast To Coast Carports greatly appreciates your purchase, however, it is imperative that your ground is professionally leveled before the unit can be installed. Coast To Coast Carports, & our subcontracted installation crews that we work with will not be able to install the structure if any of the following are indicated at the construction site, please contact your Coast To Coast Carports' Customer Service Specialist if you have any concerns.

Wall Installation - 3 Feet Maximum

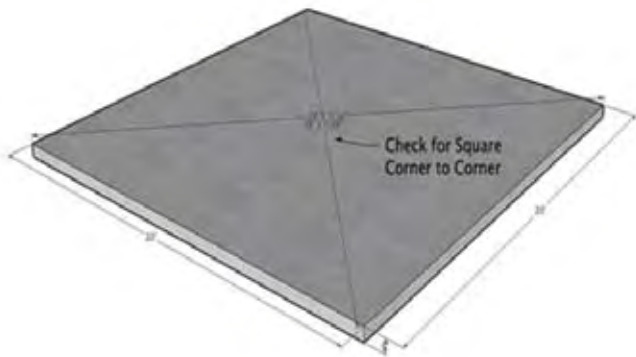

No Installs on Stacked Blocks

No Installs on Floating Docks

No Installs on Unlevel Land

Slab Must Be Level & Square

No Installs on Slopes Over 12"

Buyer ensures Coast To Coast Carports that the ground is professionally level while also acknowledging that if the installation crew is unable to install the structure due to an unlevel foundation there will be a return trip fee along with a restock fee that must be paid before returning to the site.

Thank you for your understanding, and once again, we appreciate your business.

TESTIMONIALS

Melissa Fults

Arrived at 7:05, had the carport up & ready to go in an hour. Crew was professional & did a great job!

Becky Baird Thermopolis, Wyoming

Awesome workers. Super 24x40 enclosed with 2 garage doors and 2 shop doors and time building was incredibly fast and efficient. I bought the workers to go boxes with Mexican food and tipped them well. I can't thank you enough for the fine work.

Mrs. Sue Sweetma Board Camp Arkansas

I would like to compliment you on your crew, the four young men that came to install my carport were very polite and professional. I was really amazed at how fast they got the job done and it looks fabulous. I would highly recommend Coast-to-Coast to anyone.
